

Playing the Lottery resulted in a very nice Christmas present for these lucky winners!

Since September, the purchase of a lottery ticket at one of the “Big Wheel” lottery shops meant not only the possibility of winning a jackpot, but also starting off the new year with a brand new car from R.E. Yrausquin & Sons. Abby Toppenberg and Rotando Boezem discovered that investing twenty-five florins a week not only gave them twenty-five chances to win from the one florin lottery, but also resulted in them being hand the keys to a brand new car.

Abby Toppenberg will be showing off a brand new Ford EcoSport while visiting families over the holidays. Maria Boezem accepted the keys to a Mitsubishi Lancer GLX on behalf of her husband, during the presentation ceremony at the R.E. Yrausquin dealership on Wednesday morning, December 20. To be eligible to win these cars they needed to do nothing more than buy twenty-five florin worth of lottery tickets each week since September. Whether they also won a jackpot is a mystery, as they were not telling, but they were very happy with their new cars!
